EPDM

Traditionally, single-ply roofing is one-size-does-it all. Yet more and more modular manufacturers and dealers are reaping the benefits of Mule-Hide Professional Roofing Systems, custom sized to fit modular structures.

Black EPDM .045 (Non-Reinforced)

Custom cuts or Master rolls with modular industry sheet sizes

The most economical single-ply membrane

Excellent for fully adhered systems when using Water Base Bonding Adhesive - fast installation keeps lines moving!

Black EPDM .060 (Non-Reinforced)

Custom cuts or Master rolls with modular industry sheet sizes

Ideal for fully adhered systems

White-on-Black EPDM .045 (Non-Reinforced)

Reflects the sunlight & cools the building interior - leading to lower BTU usage and energy costs.

Custom cuts or Master rolls with modular industry sheet sizes

Fully adhered application is required

System Benefits

- **Easy to Install & Retrofit** - Mule-Hide EPDM Roofing Systems install quickly and economically. UL & FM listed assemblies are available upon request. Non-penetrating mate-line & bridging system keeps dealer multi-unit lease-fleets fit.
- **Fast Roofs** - The EPDM membrane is fully adhered with Mule-Hide Water Base Bonding Adhesive, a must for in-plant installation. Its single-side, wet application requires fewer workers and offers easier sheet positioning. All the accessories you need to complete roof details around edges and penetrations are also stocked locally for delivery along with your EPDM.
- **Strength** - EPDM (Ethylene Propylene Diene Monomer) is a high tensile strength, single-ply membrane ideal for long-term
- **watertight integrity.** EPDM is lightweight, making it ideal for new construction and retrofit installations without adding excessive weight to the roof deck. Meets or exceeds ASTM standards.
- **Quiet Protection** - Eliminates "roof rumble" while it protects against leaks. Our insulated roofing system rids modular structures from the noise made by rain and hail or when wind passes over metal roofs causing vibration.
- **Flexibility** - And yet the membrane remains flexible in hot and cold temperatures so it will not split or crack. EPDM stretches to 425%.
- **Long Lifecycle** - It provides excellent resistance to ozone and UV and can handle the coldest winters or the desert heat.

Warranty Program Unsurpassed

Due to Mule-Hide's time proven roofing systems, and our commitment to training by our technical experts, our warranty program is unsurpassed in the industry.

Mule-Hide offers both System warranties and membrane-only warranties for modular structures. All System warranty eligible projects are pre-approved and inspected by a Mule-Hide representative prior to the issuance of the warranty.

"The name trusted in roofing since 1906"

Professional Roofing Systems to Fit Modular Structures

History of Mule-Hide

The original Mule-Hide trade name was registered in 1906. Mule-Hide manufactured top quality roofing products that quickly gained a reputation for long lasting performance. The "Mule-Hide" name developed because of an incident witnessed outside an office in Chicago. As the story goes, a horse drawn wagon with four horses was stuck in the mud. To help out, another driver hitched two more horses to the wagon. They were still unsuccessful. A short time later, a wagon with two mules came by. They took off all of the horses and hooked up the two mules. The mules dug down hard and pulled the wagon out. The impressive strength and durability of the mules would express those same qualities associated with the roofing materials Mule-Hide Products came to represent.

Mule-Hide trains & assists your team:

- Hands-on in-plant factory installation training
- Dealer lease-fleet setup & dismantling and reroof training
- Retrofit contractor referrals
- Unsurpassed technical support & customer service

Three Key Pieces to Profitability

- 1 Savvy Modular Dealers specify Mule-Hide for "Plain Jane" and special order units.
- 2 Mule-Hide roofing systems are the #1 choice of Modular Manufacturers.
- 3 Sold nationwide and in Canada at local distributors near your plants and offices.

Mule-Hide Customers Win Big

Kullman Industries
1999 First Place in the Renovated Reuse, Greatest Revision from Original category from the Modular Building Institute's Awards of Distinction.

Williams Scotsman/United Modular
1999 First Place in the Permanent Commercial over 5,000 sq. ft. category from the Modular Building Institute's Awards of Distinction.

Mule-Hide Distributors deliver materials just in time, ready to install:

- Companion products such as insulation, siding, and windows
- Virtually eliminates damage on orders:
 - Local cutting, inspection, packaging, labeling
 - Local delivery with superior handling, binding, and palletizing
