

MULE-HIDE PREMOLDED EPDM PIPE BOOTS

PRODUCT DESCRIPTION

Mule-Hide Premolded EPDM Pipe Boots are economical pre-fabricated flashings designed for single pipe penetrations on single-ply EPDM roofing systems. The premolded pipe boots are available with or without a butyl tape ring laminated to the bottom side of the three (3) inch base flange.

BASIC USES

Mule-Hide's Premolded EPDM Pipe Boots will accommodate single pipe sizes from 1" to 6" in diameter. With their conical-shaped steps, the pipe boots will securely seal all single pipe penetrations. The large, double-thick, molded rib at the top of each step offers superior tear-resistance and reinforcement, as well as a cutting guide.

SPECIFICATIONS

Colors: Mule-Hide premolded EPDM pipe boots are available in Black or White.
Premolded Pipe Boots with Tape rings are only available in Black.

The Mule-Hide Premolded EPDM Pipe Boots are made from .060 inch thick EPDM (Ethylene Propylene Diene Monomer) and shall be ozone and ultra violet resistant with a serviceable temperature range of -45°F to +160°F. The pipe boots have a 3 inch base flange. The boot has conically-shaped steps with double-thick molded ribs to fit each pipe size. Stainless Steel Snap Lock Clamps are available. Each pipe boot is capable of flashing and sealing one single pipe from 1" to 6" in diameter.

PACKAGING AND STORAGE

The Mule-Hide Premolded EPDM Pipe Boots are cured rubber products and when stored in their original, unopened containers indoors and out of direct sunlight, will not degrade in normal warehouse storage. Mule-Hide recommends that stock be rotated.
