

MULE-HIDE TPO MOLDED SEALANT POCKETS

PRODUCT DESCRIPTION

Mule-Hide TPO Molded Sealant Pockets are prefabricated pockets of Mule-Hide non-reinforced TPO material. 2" x 10" Pocket Extensions are available to enlarge the size of the pockets.

BASIC USES

Mule-Hide TPO Molded Sealant Pockets are ideal for sealing irregular, hard to flash penetrations through the membrane.

SPECIFICATIONS

Color: White, Gray and Tan
Sizes Available: 6" – 8" diameter (15, 20 cm)
Packaging: 5 pockets per carton
Weight: 2 lbs/carton (.91 kg/carton)

PACKAGING AND STORAGE

Mule-Hide TPO Molded Sealant Pockets must be kept clean and dry prior to installation.

INSTALLATION INSTRUCTIONS

Refer to Mule-Hide Details published in the Mule-Hide TPO Specification Manual.

PRECAUTIONS

Temperature of penetration shall not exceed 180F (82°C). The inside of the sealant pocket and all penetrations must be cleaned with TPO Weathered Membrane Cleaner then coated with Mule-Hide Tape Primer prior to filling with sealant. Mule-Hide Thermoplastic One-Part Pourable Sealer must completely fill sealant pocket. The walls of the sealant pocket must be a minimum of one-inch from any penetration. TPO Sealant Pockets or TPO-c membrane that has been exposed to the weather for approximately 7 days or longer prior to use must be prepared with TPO Weathered Membrane Cleaner prior to hot air welding. Make sure all voids or openings between the penetrations and the membrane inside the pocket are sealed (use caulk or tape for sealing) before filling the pocket. Openings will permit the sealant to penetrate into the deck and possibly into the building.
